*advocates women's rights, social fairness and equal opportunity. It is a celebration of women from all spheres who endorse these aims and make a difference. An example and role model for future generations of young women, our nominees lead by example, are accommodating and flexible by nature, yet strong and immovable on points of principle; always determined but always aware of circumstance.*

# TRAILBLAZERS

For more than 70 years, women have blazed new trails in aviation. In 1942, Jacqueline Cochran helped form the Woman Airforce Service Pilots (WASP). Maj Gen Jeannie Leavitt became the Air Force's first female fighter pilot in 1993, and later the first female Fighter Wing Commander. In 1995, Col Eileen Collins became the first female space shuttle pilot. Together, they've inspired a new generation of women leaders who are breaking new barriers every day.

WHO WILL BE NEXT?
